

Pair your device (access subscribed content)

Automatic Pairing

If you access your institution's electronic resources over a **wi-fi network** pairing is automatic when you visit www.bioone.org on your device.

Manual Pairing (for users off-campus or without wi-fi access to electronic resources)

- 1) From a desktop, laptop, or tablet device **log in to your institution's network** for access to electronic resources (subscribed content)
- 2) Click or copy and paste this link into your web browser: <https://www.bioone.org/action/mobileDevicePairingLogin>
- 3) BioOne Registered Users **log in** OR New Users **register for an account**
Your unique **pairing code** will appear on the next screen

- 4) On your mobile device open the web browser to www.bioone.org
Tap the **Settings icon** that appears at the top of the Home screen
- 5) Tap **Device Pairing** on the next Settings screen
- 6) **Scroll** to the bottom of Device Pairing screen and in the text box enter your pairing code, select the **Verify Code** button

HINT:
Your device stays paired for 180 days
